

Project Case Study

Alinta Gas Pinjar Power Station Metering Skid

End User	Alinta Gas
Client	Alinta Gas
Location	Pinjar Power Station, WA
Market Sector	Power Generation & Utilities

Scope of Work:

With over 30 years of specialist fabrication experience, Alltype Engineering was contracted for the supply and fabrication of a high pressure gas piping metering skid for Alinta Gas to supply an additional unit at the Pinjar Power Station.

This skid was custom fabricated to meet stringent client specifications and ASME and AS standards. Being able to execute all scopes in house eliminated interface issues between disciplines to provide a complete turnkey solution and Alltype Engineering managed the oversize transport requirements.
